

WELCOME

to the 11th International Symposium on Wine and Health in
Conjunction with the 20th Budapest Nephrology School

Special Dinner Reception with Wine Tasting

26 August 2013 16:40 – 22:00

Organized and Sponsored by the Hungarian Kidney Foundation

Aim of the Symposium

- Discussion of the effects of alcohol and wine on health in general and on kidney in specific
- Discussion the dose, which makes the poison or the benefit
- Evaluation of the acute effects of the best Hungarian wines

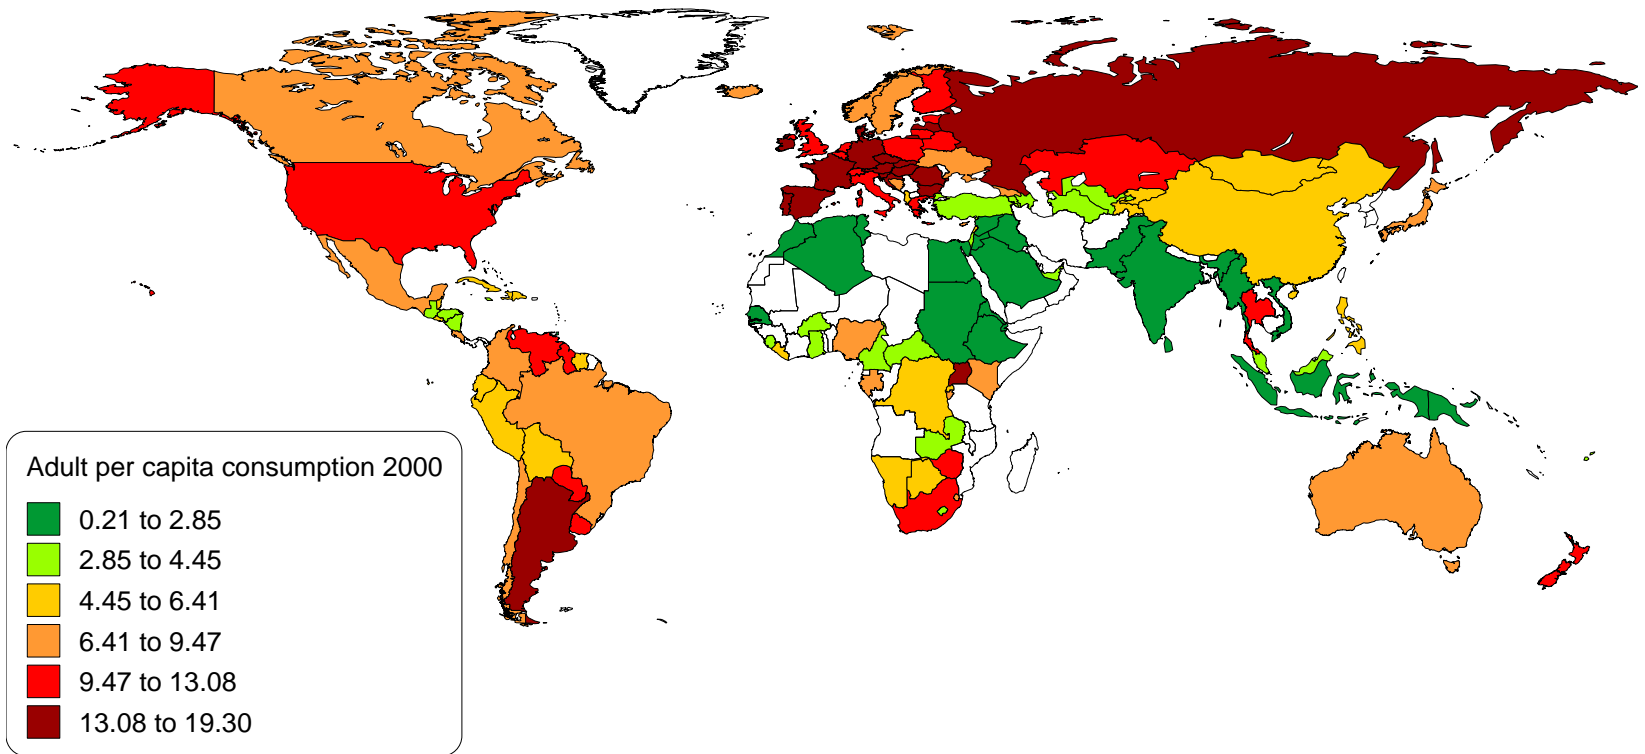

Wine and Hungary

Wine is not only important to Hungarians but it has a several thousand-year history in mankind life.

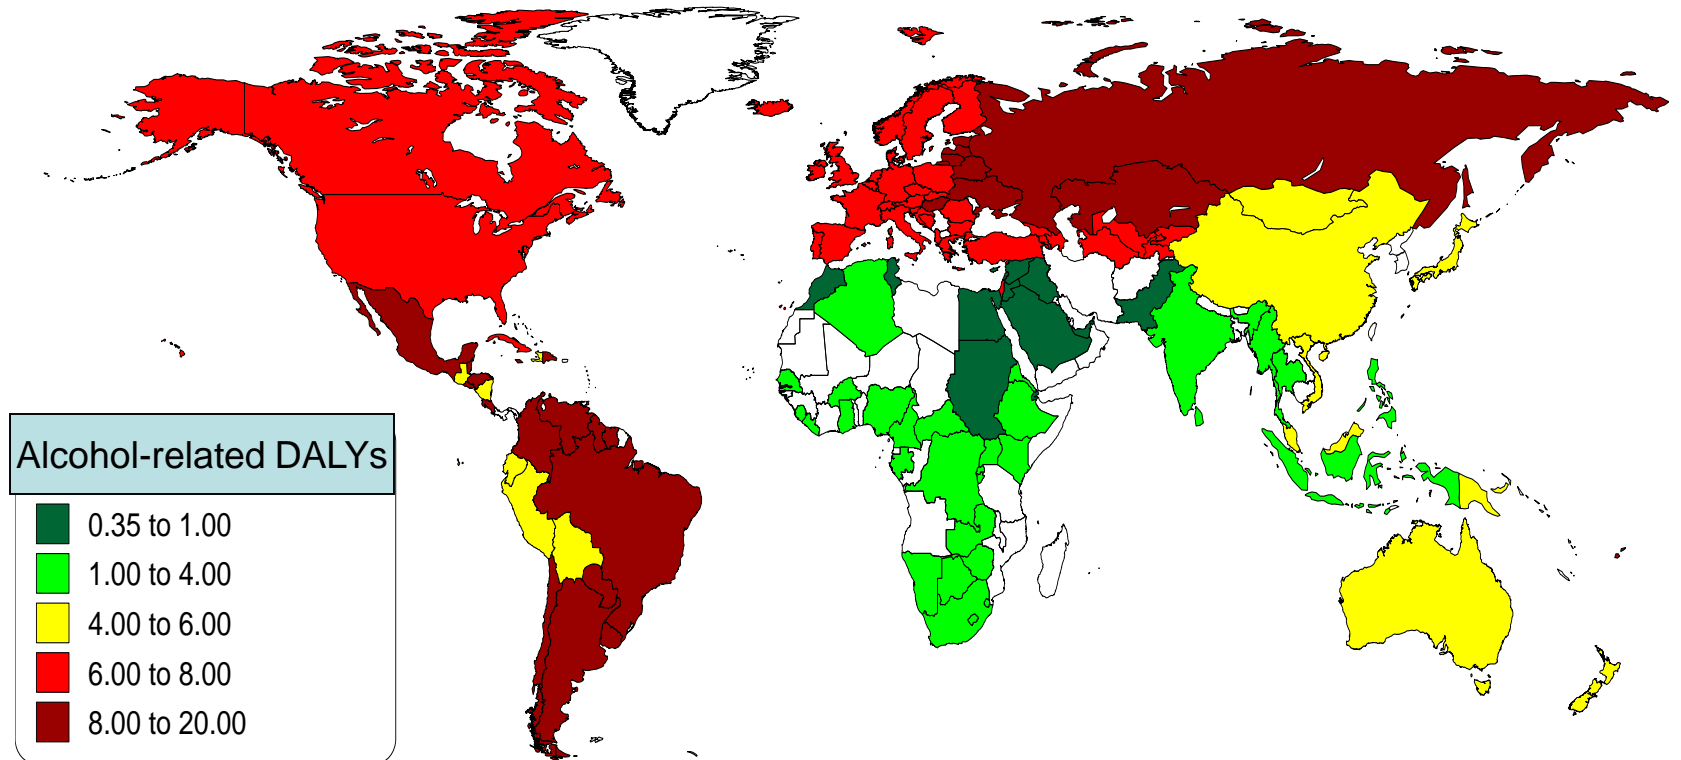

Although, there are 22 historical vineyards in our country, among them so famous places like Tokaj, Villány, Badacsony and the long culture and tradition of wine consumption, there is a high incidence of cardiovascular disease with the resultant serious decrease in life expectancy in this region.

This symposium will provide a good opportunity for scientific exchange and informal discussions with members of faculty and also with the representatives of the Medical Experts and “Hungarian Wine Academy”.

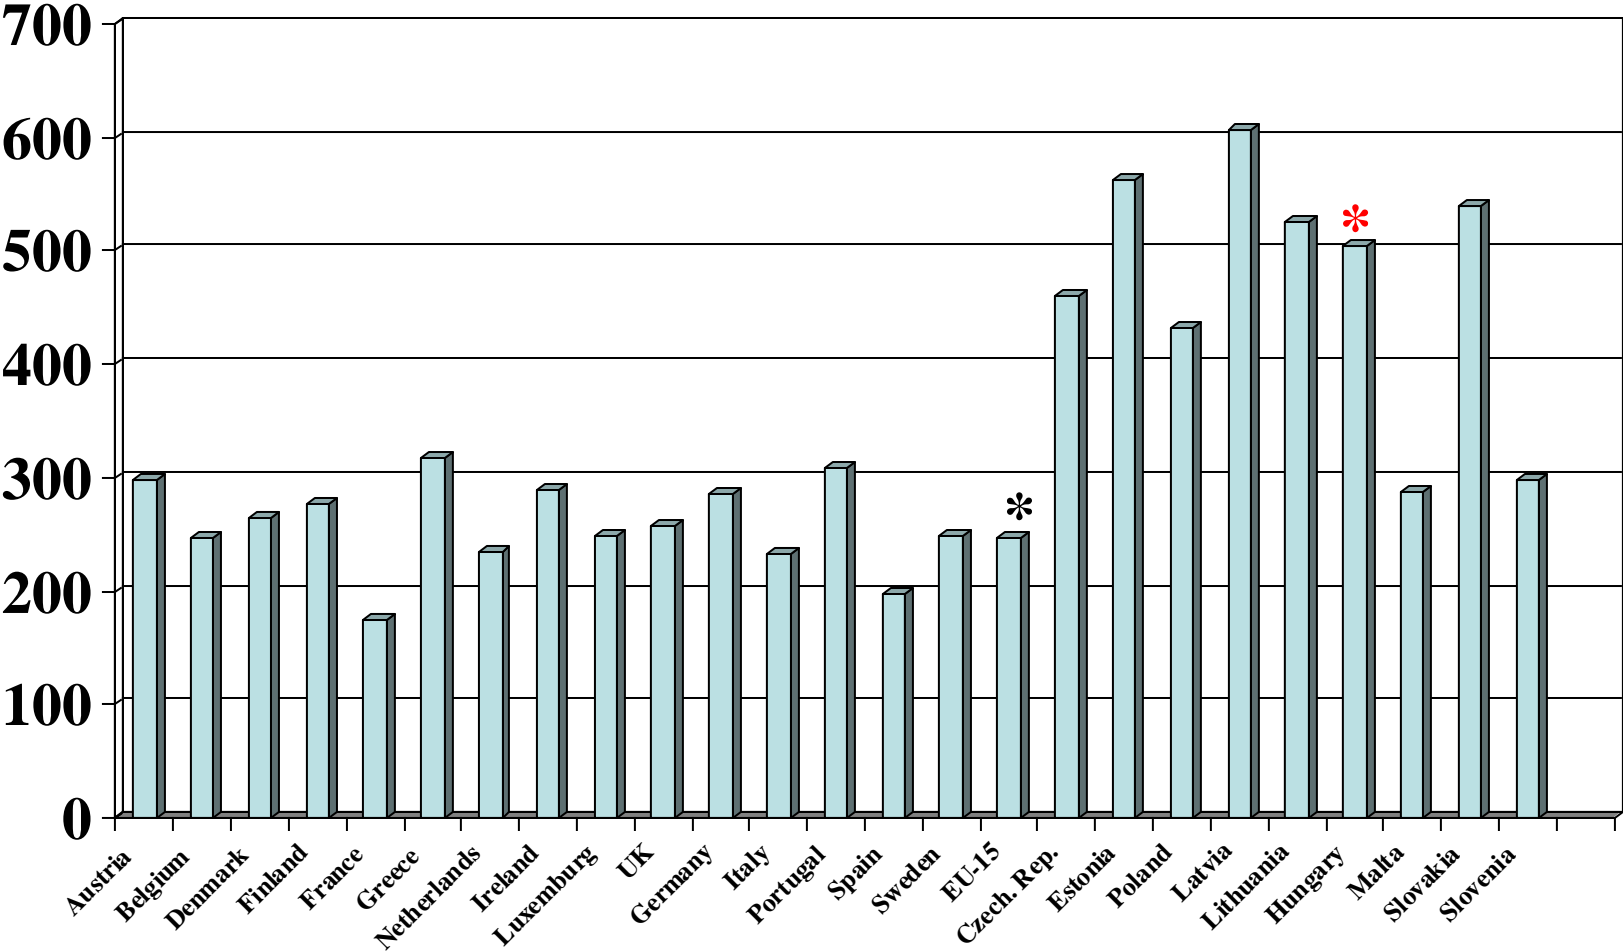

Adult per capita consumption in litre pure alcohol 2000

Alcohol-related global burden of disease

CV mortality in the EU/100.000 persons
